

## GIVE UP HOPE FOR TALMAGE

Physicians Concede That the Famous Preacher is Slowly Dying.

## HE SUFFERS MUCH

Brief Biography of One of the Most Popular Divines in This Country.

## FAMILY AROUND HIM

Washington, April 12.—Rev. T. De Witt Talmage, the noted Presbyterian preacher, is slowly dying at his residence in this city. His physicians concede that they can now see no hope for his recovery.

Dr. Talmage was in poor health when he started for Mexico six weeks ago. He suffered from influenza and

serious catarrhal symptoms. He has been ill since his return to Washington a month ago.

The day before the wedding of his daughter he recognized the latter, saying: "Of course I know you, Maud." Those are about the last rational words he uttered.

According to the statement of the physicians there was no marked change in the condition of Dr. Talmage. If anything he was a trifle easier, with the pulse a little more regular and with less fever. His condition, however, is critical.

Thomas DeWitt Talmage, an American divine; born at Bound Brook, New Jersey, Jan. 7, 1832. He entered the legal profession, but, after a short period, prepared for the ministry at the New Brunswick Theological Seminary, graduating there in 1856. His first pastorate was at Belleville, New Jersey; he afterward removed to Philadelphia, where his rising fame induced the church at Brooklyn to make strenuous efforts to obtain his services as their minister, and he preached his first sermon there in March 1869. The great success which attended Dr. Talmage's preaching necessitated the enlargement of the Tabernacle in 1871, but it was burned a year later. However, a still larger and finer structure was soon built, but this was also burned down in 1889. A new church was built at a cost of about four hundred thousand dollars, and dedicated in 1891, but this was also burned in May 1894, and was not rebuilt. In 1895 he removed to Washington, District of Columbia. Dr. Talmage visited England in 1889, and afterward made a tour of Palestine and on the Continent. He published many sermons and religious works.

## MADISON LAUGHS AT FROELICH BOOM

State Employes Trot Out Heads of All Departments as Candidates for Governor.

Madison, Wis., April 12.—It is a standing joke in the state capitol that the clerical force in each department or bureau has a gubernatorial candidate. This came about by the hustling being done for secretary of state, Froelich by his appointees. While the work of Froelich's lieutenants is serious enough, the other departmental clerks are wittily asserting the same solicitude for the advancement of their respective chiefs.

Taus Emil Giljohann, insurance commissioner, is touted for governor. The same is true of Attorney General Hicks, Adjutant General Boardman, Treasurer Davidson, Judge Lyon of the board of control, General Bryant of the department of public property, and Railroad Commissioner Rice. George Curtis Jr., of the tax commission is trotted as the republican candidate of the office against Judge Gilson, democrat. N. P. Haugen laughs in his funny Scandinavian fashion and says he's a candidate for anything. The associates of Supt. Harvey refuse to talk politics and will not enter into the joke.

M. C. Hanna, city editor of the Milwaukee Journal was in the city today on his way to Beloit. Mr. Hanna has been at Richland Center, covering the case of Stayton vs. James for the Journal.

## CABINET DISCUSS BOER PEACE TERMS

Indirect News as to What the Stipulations Ask For—Great Excitement in London.

London, April 12.—The rumors of an early peace aroused unusual interest in the cabinet meeting today. Crowds surged about Downing street, recalling the meeting when the war was about to break out. The arriving ministers were greeted with cheers. The meeting began at twelve o'clock.

The meeting lasted less than two hours. Nothing as to the discussion or decision was divulged after its adjournment.

The Edinburgh News today prints the alleged terms upon which are based the peace negotiations, now pending. Independence is to be waived if a satisfactory agreement is reached for future government. Kitchener's proclamation of banishment is cancelled; confiscated property restored and remuneration for that destroyed; recognition of the Transvaal state debts until the date of Robert's annexation; amnesty for rebels and political terms.

Editor MacPherson recently returned from Holland where he interviewed Kruger.

## GOV. LA FOLLETTE MADE A SHRINER

"Rode the Goat" Before 400 Members of the Mystic Shrine in Milwaukee Last Night.

Milwaukee, Wis., April 12.—Governor Robert M. LaFollette "rode the goat" before 400 members of the Mystic Shrine in the Masonic temple last night. He was one of a class of forty-six who took the degree. The governor was featured on the invitations sent out by the order to the members requesting them to attend without fail, as an unusually interesting time was promised.

The governor seemed in good spirits after the trials of the initiation, but was not inclined to talk about it, and the other members of the order upheld him in his determination as he was leaving the hall at Jefferson and Oneida street at midnight last night. There were present 400 members of the order, of which a dozen were members of the Mendocino shrine of Chicago and 100 were from the various cities in the state.

After the initiation there was a banquet with speeches and an orchestra played several selections. The banquet broke up shortly after midnight.

## SERIOUS LABOR RIOTS AT RACINE

Non-Union Man Shoots a Striker and Narrowly Averts Being Mobbed by a Crowd.

Racine, Wis., April 12.—Bloodshed and rioting were the result of labor troubles at the J. I. Case plow works, and the jail is surrounded by a body of special deputies, fully armed and prepared, lest the union men attempt to lynch Howard Fristo. Fristo, in an altercation with August Reiman, a union molder, shot him, and it is thought the wounded man will die.

Reiman fell to the ground and there was a panic among the people. Fristo started to run away and the people gave chase after him, throwing stones. Fristo then threw the shells from the revolver and, reloading it, turned upon his pursuers and threatened to kill them. Finding a crowd gathering on either side of him he charged, with a revolver in each hand, and the people gave way before him. They closed in, however, and followed him to his boarding place, where the police were called. With much trouble they took Fristo from the house through the angry mob and to the jail.

## Coldest Negro Millionaire's Will

Philadelphia, April 12.—Steps were taken by the relatives of the late Col. John McKee, the colored millionaire real estate dealer, to prevent the registration and execution of his will. Counsel for Abbie A. Syphax, Col. McKee's daughter, and Henry McKee Milston, filed a caveat with the registrar of wills against the admission of any paper purporting to be the testament of Col. McKee.

## HE FORSEES THE COMING OF A FAMINE

Deplorable Condition in the Province of Battangas—Two-Thirds of the Population Dead.

Washington, D. C., April 12.—A deplorable condition in the province of Battangas is reported in a statement by Florencio Caedo, the financial secretary of the province, made public by the Senate Philippines committee. The report is the one withheld by Taft at the time he testified. He states that the mortality by disease has been two-thirds of the population; that of twenty pueblos in the province relative peace is enjoyed only in five. He foresees the coming of famine as agriculture is bad. In a letter to General Taft he denies withholding from the senate committee the report on Tayabas; that he and Rot believed it ought to be submitted to Chaffee before being made public which was done.

## SOLDIER, POET AND A LAWYER

Eugene F. Ware, the New Pension Commissioner, a Capable Man.

## IS 61 YEARS OF AGE

He is the Author of Many Fine Poems, Sketches and Legal Essays.

## WILL FIND HARD JOB

Washington, April 12.—Eugene F. Ware of Topeka, Kan., is to be the new commissioner of pensions if he will accept the post. Announcement that he had been selected for this appointment by the president was made at the White House after the cabinet meeting yesterday. The appointment is a personal one with the president Mr. Ware being well known to him.

Mr. Ware is 61 years old, a native of Connecticut and a former resident of Burlington, Iowa. There he attended the public schools and enlisted for the civil war in the First Iowa Infantry, serving afterward in the Fortieth Iowa Infantry and Seventieth Iowa cavalry, finally becoming captain of the last named organization. He was in the army for five years and three months. He served in the various Indian wars which followed the close of the civil war, and in these campaigns saw much service and was badly wounded.

Non de Plume of "Ironquill" After leaving the army he removed to Fort Scott, Kan., where he was admitted to the bar in 1871. He was elected to the Kansas senate, of which body he was a member for five years; was twice a delegate to the republican national convention, and removed to Topeka in 1893, entering the law firm of Gleed, Ware & Gleed. He is at present associated with the Attorney General of Kansas in conducting litigation involving irrigation questions between Kansas and Colorado in the Supreme Court of the United States. He is the author of many sketches, pamphlets and legal essays, and under the nom de plume of "Ironquill" has written many clever poems of wide popularity. It was through his writings that he first became known to Theodore Roosevelt. Mr. Ware has always been deeply interested in the army matters and is very popular with the old soldiers.

## Will Find a Hard Job

The new commissioner of pensions will find his job anything but an easy one. Senators and representatives are also anticipating trouble. Scores of thousands of pension claims which have been turned down by Mr. Evans through a resolute administration of the law will now come to the front again. Members of congress expect to be flooded with them. They will be pressed for action upon the theory that Mr. Evans was too severe in his application of the law, and that the new man may open the door a little wider. The pension agents, who have joined with the Grand Army organization in making war on Mr. Evans, are already encouraging their horde of disappointed clients to try again. The result will be that Mr. Ware will have need of all his fortitude if he is to resist the torrent of appeals that is sure to flow in upon him, backed by the Grand Army, the political and the pension agents.

President Roosevelt told a caller today that he had every confidence Mr. Ware was strong enough to continue the policy of his predecessor absolutely unbroken, but such things always have to be proven in the end.

The career of the new pension commissioner will be watched with a great deal of interest by all who are familiar with the inside workings of that great bureau.

## IOWA LEGISLATURE FINISHES UP WORK

An Adjournment Taken Yesterday, After 89 Days Session, in Which 249 Laws Were Passed.

Des Moines, Ia., April 12.—The legislature, according to its records, adjourned sine die at noon yesterday, but in order to meet the situation, the clocks were stopped, and in reality the body did not complete its work until late in the evening. The usual speechmaking, singing, presentation of chairs to the presiding officers and governor, and final leave taking of those members who departed on early trains were witnessed today.

The body has been in session eighty-one days, and in that time there have been introduced 822 bills—367 in the senate and 455 in the house. Of this list there were passed 249, the senate passing 105 and the house 144.

Among the important bills defeated were those providing for a primary law; for woman suffrage; for a reformatory for women; to remove the circle from the ballot; the railway taxation bill; for the removal of the state university; the valued policy bill; the optometry measure; and the resolution favoring the Hoar bill against government of strikes by injunction. The governor vetoed one bill, by Malsberry, known as the merger bill.

## TO VOTE AGAINST THE CUBAN BILL

Six Badger Congressmen Are Opposed to Reciprocity Measure.

## FEAR FOR TOBACCO

It is Thought the Passage of the Bill Would Impair Leaf Industry.

## FLOODS OF LETTERS

Washington, D. C., April 12.—From present indications, six of the Wisconsin representatives in the lower house of congress will vote against the Cuban reciprocity bill. The vote is now expected to be taken Monday or Tuesday of next week. The six will be Minor, Jenkins, Brown, Dahle, Barney and Each. Tremendous pressure has been brought to bear on these men to get into line with the majority of their party on the ways and means committee, but they have considered the subject fully, have heard from their districts, and can be expected to stand out for what they believe to be the interests of their constituents.

Floods of Letters All these men have received floods of letters from their districts, speaking their votes against the bill. Comparatively few letters have been received by any of them from constituents favoring the measure. If their correspondence is any indication of the state of public sentiment in Wisconsin, it seems adverse to the bill for a variety of reasons, chief of which is the fact that it is feared it will nip in the bud the prospect for the establishment of a thriving beet sugar industry in the state.

## Fear for Tobacco Industry Too

Next to that reason is the belief that the bill will seriously impair the tobacco industry, which plays such an important part in several of the southern counties. Representative Dahle, in whose district the greater part of the Wisconsin tobacco lands lie, bases his opposition to the measure chiefly on that and he is the recipient of numerous letters from tobacco growers of Dane county strongly opposing the bill.

It will be remembered by those who have followed the course of the agitation for the establishment of the beet sugar industry in Wisconsin, that the experts of the college of agriculture of the state university, headed by Dean Henry, have again and again declared their conviction that Wisconsin has the best land in America for the cultivation of the sugar beet, and that unless adverse conditions arose, it was only a question of time when the state would possess a flourishing beet sugar industry.

This statement has apparently been endorsed by the manufacturers, for projects are on foot in a number of places about the state for the establishment of factories. This is particularly true of the northern counties.

## One Case to the Point

An illustration of this, and the fear which is entertained of the disastrous effects which it is believed by many will follow the enactment of the bill, is a petition received by Representative Brown a few days ago from the farmers living around Dorchester, Wis. They have written Mr. Brown that arrangements are practically complete for the erection of a beet sugar factory at that place next winter. If the pending bill is not passed, should the bill pass, however, the whole plan is to be abandoned. This would probably be the case with every other project of like nature in the state, and in other states.

The tobacco growers of Dane, Rock and Jefferson counties regard the question in the same light. They fear the effects of the competition of Cuban tobacco if the tariff is reduced. They cannot understand why they and the beet growers should be forced to bear the burden of giving Cuba economic aid. That these two classes of producers would bear the greater part of the burden seems settled, as the chief products of the island as everyone knows, are sugar and tobacco. Many of the letters to the Wisconsin representatives favor an appropriation giving outright aid to the Cubans, rather than the two industries of the United States should suffer.

## GREAT BRITAIN TO COERCE IRELAND

Report That Ten Battalions of English and Scotch Militia Are To Be Sent to the Island.

London, April 12.—A dispatch to the Pall Mall Gazette from Dublin says that ten battalions of English and Scotch militia are to be sent to Ireland within a month, in pursuance of the British government's determination to apply the coercion act.

The correspondent understands that Lord Londonderry, the postmaster general, threatened to resign from the cabinet unless active measures were taken to circumvent the United Irish League.

Brussels, April 12.—The streets are again quiet. The police, however, are preparing for a disturbance to-night or tomorrow.

## WORK OF CONGRESS FOR NEXT WEEK

Debate on the Cuban Reciprocity Bill Promises to Take Up Much Time—in the Senate.

Washington, April 12.—The debate on the Cuban reciprocity bill promises to extend over, nearly, if not quite, the middle of next week in the house. There is no disposition on the part of the ways and means people to force an agreement; they are content to let the beet sugar interests register their protests.

About 35 republicans will vote against the bill. If there is a vote before Saturday the next measure to come up will be the anti-anarchist bill followed by the fortifications appropriation.

The Chinese exclusion bill will continue to occupy the attention of the senate the early part of the week on the amendments to begin on Wednesday. Their friends of them assure still claim it will be adopted, but they admit the vote will be close. Its opponents are equally confident it will be defeated.

## BIG FACTORY SOLD AT STOUGHTON

Mandt Plant Acquired by the Moline Plow Company—Work of Enlarging Will Begin Soon.

Stoughton, Wis., April 12.—The mammoth plant in this city of the T. G. Mandt Vehicle Co., which was founded by T. G. Mandt, who died two months ago, was sold today to the Moline Plow company of Moline, Ill., for \$55,000. The deal was made through P. M. Price, special agent for the Moline company. All of the old stockholders of the works will receive par value for their holdings. The works will remain here and the capital stock will be increased to \$225,000. The works will be enlarged and an additional force employed. It is said that this purchase is another move toward the formation of a national vehicle trust.

## WILL DEVELOP MINES

Actual Work Begun on Property Supposed to Contain Gold, Near Prairie du Chien.

Prairie du Chien, Wis., April 12.—Development of the mining territory in this vicinity is looked for the coming summer. Options on several farms have been taken and closed up by Mrs. Dousman and St. Paul and Eau Claire syndicates are picking up options on real estate in the vicinity of the gold discovery made by Mrs. Dousman last fall. It is reported today upon good authority that a second ledge of gold bearing quartz has been located about two miles from the present find which is fully equal to the ore found on the Dousman farm. Actual mining operations on the Dousman were begun today and the development will be prosecuted for several weeks to ascertain the extent of the vein of gold bearing quartz.

## GREAT GRAVEL PITS AT ROCKTON, ILL.

Chicago, Milwaukee & St. Paul Road Has Opened a Pit That is Fifty Acres in Extent.

Rockton, Ill., ballasts the tracks of railroads from Lake Michigan to the Mississippi river and on almost to the Missouri. It all comes from the immense gravel pits being developed along the Rock river the product of which reaches in white streaks across thousands of miles of prairie and forms a bed on which the fastest and heaviest trains may be operated with safety, says the Beloit Free Press.

The Chicago, Milwaukee & St. Paul company has commenced operations in a new pit that it bought near Rockton last year. The pit is fifty acres in extent. It is within a mile of another pit that has been operated since 1890 and which consisted of about thirty acres, but is now practically abandoned.

The gravel taken from this locality is said to be the finest ballast gravel in world, being free from sand and dirt. Before the gravel is reached it is necessary to strip off the soil to the depth of about a foot to eighteen inches. A big steam shovel, weighing 65,000 pounds is then put to work on a strip of gravel forty-eight feet wide and 2,700 feet (or over half a mile) long.

It requires a month for the shovel to walk through one of these strips from which 10,000 cars of ballast are taken. The shovel has a dipper with a capacity of two and one-half cubic yards at one scoop, and is operated by a crew of four men—an engineer, fireman, crane-man and watchman, the latter watching the pit at night.

These men make some record-breaking runs occasionally. Not long ago Engineer John Bishop and his crew loaded twenty-eight cars in twenty-five minutes.

Gravel land on which streams of prehistoric ages the geologists say, manufactured this ballast, cost a great deal of money. Little can be had for less than \$200 an acre, and some of it cannot be had at those figures. The pit at Rockton is of great depth, the bank of the new pit sloping down forty-five feet, and if the cars could be got out after being loaded a further depth of six feet would be utilized.

M. F. Greene returned this morning from a business trip to Madison.

## JURYMEN WILL VALUE KISSES

Trial of Stayton vs. James Opened at Richland Center Today.

## HUSBAND IN CASE

Many G. A. R. Veterans Present to Assist Their Comrade in His Trouble.

## TO BE A SHORT TRIAL

Richland Center, April 12.—Are three kisses, alleged to have been taken from Mrs. Sarah Stayton by David G. James, former G. A. R. commander of this state, worth \$15,000? This is the question which a jury has to determine some time today and which has brought every farmer and his wife for miles around to this city. The trial began at ten o'clock this morning.

Robert Stayton and his wife, on Jan. 1, 1901, were engaged by Defendant James to run his farm three miles from here. The 1st of February, Mrs. Stayton says David James came to the farmhouse, took from her a kiss and departed carrying a basket of eggs. The kiss was not obtained without considerable difficulty, but Mrs. Stayton says it left her speechless with humiliation. Mr. James is charged with repeating this operation March 31, and with making an attempt which failed April 15.

However, these oscillatory episodes did not interfere with the Staytons remaining on the farm until Dec. 31. Now Mrs. Stayton says she intends to have satisfaction and has commenced a litigation which promises to make the suit of Stayton vs. James as famous as that of Bardell vs. Pickwick.

## Mrs. Stayton's Husband

Robert Stayton, who has leaped into fame as the husband of Mrs. Stayton, is one of the plain people and figures but little in the proceedings. For twenty-five years he has been the husband of the woman whose kisses are worth \$5,000 each, and yesterday afternoon was the first time that the breezes of Richland Center had encountered his whiskers. This was when he entered the courtroom with his wife leaning on his arm. The court room was crowded and hundreds of eyes were turned upon the pair. Mrs. Stayton bore the scrutiny calmly, but it lasted only a few moments.

The crowd gazed with surprise upon David James for it could not believe that he had kissed the woman. But Mrs. Stayton is confident of proving her case, as she declares that Ell, her son, saw one of Mr. James' alleged attempts upon her. When the plaintiff was asked in a recent deposition why she did not call upon her offspring for assistance, she replied:

"Twart none of his business, and besides, I ain't afraid of no darned man."

## David James Alleges Malice

Mrs. Stayton is a large, robust woman, and the defendant, while still a vigorous veteran, is nevertheless on the down hill of life. He is one of the most prominent citizens of Richland Center, and has conducted a hardware store here for years. He is the best-known G. A. R. man in the state, is a member of the Shiloh battle-field monument commission, and is active in politics.

He declares that he will spend his last dollar to fight the case and he says that the only motive back of it is malice on the Staytons' part for his refusal to pay them \$52 for the board of a dog while they were tenants of his farm. Furthermore, Mr. James has no fear of the suit going against him, and when the trial is concluded, he says, he will have more to say.

However, Richland Center was never in the throes of such excitement before, and the country for miles around has but one topic of conversation. G. A. R. buttons predominate on the streets and the veterans who have never flinched in the presence of an enemy say they would have done so in the presence of Mrs. Stayton. The trial will probably not last long, as Judge Clementson, who is presiding, has a reputation for hastening matters.

## BIG FORTUNE LEFT BY DANIEL WELLS

Will Filed Disposes of an Estate Valued at from \$16,000,000 to \$20,000,000.

Milwaukee, Wis., April 12.—The will of the late Daniel Wells disposes of the greatest fortune in Wisconsin, estimated at from \$16,000,000 to \$20,000,000. It gives \$6,000 in bequests to six local charities and the balance of the estate is left in trust, the income to be paid to his daughter, Mrs. Charles Norris, and her son, the descendants of his four sisters, and to his friends, Isaac Stephenson of Marinette and Horace A. J. Upham of this city.

London, April 12.—The British steamer, Kallian's Castle from Cape Town is ashore at Prigione, Ile of Wight. Thirty passengers are stranded.

George McGinn and wife of Edger, visited friends in this city today.

## THE BURGOMASTER AT MYERS GRAND

Matinee Performance This Afternoon  
and a Presentation Tonight—A  
First Class Company.

"The Burgomaster" will be presented at the Myers Grand this afternoon and evening. The play is undoubtedly the most extraordinary operatic comedy triumph of recent theatrical history and during the past two seasons this merry melange of wit, beauty and song has been continuously played by two distinct organizations.

The west has been toured by a very clever organization and which has been seen here, but the east has had an aggregation of unusual eminence and a production most lavish and gorgeous to a degree; in fact this eastern company may be considered an all star cast, and has been received and praised in every city of distinction and size east of the Mississippi river.

This original Eastern organization and mammoth production will be presented with all its wealth of mirth and melody, and eighty players, comprising Richard Carle, the pre-eminent famed operatic comedian, the cashing New York beauty and distinguished prima donna, Edith Hutchins, also Knox Wilson, Agnes Paul, Wm. Riley Hatch, Josie Introdidi, Carlton King, Lucella Drew, George Romalin, Rose Leslie, and numerous others of equal prominence, including a large chorus array of singing and dancing girls, heralded as the same of youth, chic and beauty.

**Deserved a Large Audience.**  
The Beloit College Musical Club gave a splendid entertainment at the Myers Grand last night to an audience of about 50 or 75 people. The rows upon rows of empty seats rather than the boys but they went at the program bravely and did some very creditable work. The mandolin and glee clubs contain some fine artists and the program presented last evening was worthy of a large audience.

**BATES-ABER WEDDING.**  
Miss May Norris sends The Gazette the following notice of the Bates-Aber wedding from Chicago.

The home of Mr. and Mrs. W. O. Parmlee, No. 1519 Park avenue, Chicago, was the scene of a very pretty wedding. Mr. Orrin D. Bates and Miss Minnie Aber being the contracting parties. Thursday, April 10, 1902, at 9 p. m., Rev. H. C. Haskins, of the Central Park Congregational church, officiating, the impressive ring service being used.

Promptly at the appointed hour, 8:45 p. m., sweet strains of music of the organ, presided over by Mrs. W. W. Welsh, executing Lohengrin's Bridal chorus, came sweetly through the sumptuous apartments, which were beautifully decorated with smilax, ferns, palms and pink and white carnations; presenting a scene long to be remembered by those who were fortunate to be present, they being only modest intimate friends and relatives.

The bride was unattended and was attired in a handsome traveling suit of mauve broadcloth and white silk, presenting a picture of perfect loveliness, revealing the true character of this most estimable lady.

After the conclusion of the ceremony, Mrs. Welsh played Mendelssohn's Wedding March, while congratulations were being offered.

The bride is a young lady who has hosts of friends in the city which she has chosen for her home, she having been here frequently since 1894. Her parents reside in Richland county, Wisconsin, where she was formerly a teacher in the public schools.

The groom needs no introduction to the people of this city, he having been engaged in the grocery business for several years. He is a gentleman of sterling worth and integrity and the two who have thus taken upon themselves the marriage vows have every prospect before them of a happy future. The best wishes of their many friends attend them.

Mr. and Mrs. Bates will be at home to their friends after April 15, 1902, at No. 357 Court street.

## Every woman in the country ought to know about Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

## BUYS 12,000 ACRES OF PINE

John E. Glover Purchases in Northern Portion of the State  
John E. Glover, father of Mrs. Peter L. Myers of this city, has made the purchase of 12,000 acres of pine land in the northern section of the state. The New Richmond Republican Voice prints the following article:

"Mr. J. E. Glover, to whom New Richmond already is more deeply indebted than to any other one man, has done another handsome thing for the city. He has just closed a deal whereby he buys 12,000 acres of timber near Pratt. The logs will be shipped to New Richmond by rail, and manufactured here in the saw mill of Willow River Lumber Co. This means at least ten years longer run than has been figured on for this mill and therefore means much to New Richmond."

"The stumpage adjoins that now owned by the Willow river concern in the vicinity of Pratt, and logging will not be commenced on the new property for two years. Mr. Glover purchases the timber from John A. Humbird, of St. Paul."

## MEN'S MEETING AT Y. M. C. A. BUILDING

Sup't A. J. Hutton Will Speak Tomorrow Afternoon on "The Making of a Man"—Good Music.

The regular Sunday afternoon meeting for men at the Y. M. C. A. rooms will be made a special event tomorrow afternoon. Sup't A. J. Hutton of the Institute for the blind will preside and will deliver an address on "The Making of the Man." The local Trades Council will attend in a body and there will be good music, vocal and instrumental and a most pleasant and instructive time is expected. All men are invited to participate.

No Preaching in Congregational Church

Rev. R. C. Denison had expected to return from the funeral of Mrs. Denison's father, so as to be here tomorrow, but is unavoidably detained and therefore there will be no preaching service at the Congregational church tomorrow, but the Sunday school will be held as usual.

## KANSAS SOLDIER, LAWYER AND POET

In a very humble cot,  
In a rather quiet spot,  
In the sands and in the soap  
Worked a woman full of hope;  
Working, singing, all alone,  
In a sort of undertone,  
"With a Savior for a friend,  
He will keep me to the end."

Sometimes happening along,  
I had heard the semi-song,  
And I often used to smile,  
More in sympathy than glee;  
But I never said a word  
In regard to what I heard,  
As she sang about her friend,  
Who would keep her to the end.

Not in sorrow nor in glee,  
Working all day long was she,  
As her children, three or four,  
Played around her on the floor;  
But in monotones the song,  
She was humming all day long,  
"With the Savior for a friend,  
He will keep me to the end."

Just a trifle lonesome she,  
Just as poor as poor could be,  
But her spirits always rose,  
Like the bubbles in the clothes,  
And though widowed and alone,  
Cheered her with the monotone,  
Of a Savior and a friend,  
Who would keep her to the end.

I have seen her rub and scrub  
On the washboard in the tub,  
While the baby sopped in suds,  
Rolled and tumbled in the duds;  
Or was paddling in the pools,  
With old scissors stuck in spoils,  
She still humming of her friend,  
Who would keep her to the end.

Human hopes and human creeds,  
Have their root in human needs;  
And I would not wish to strip,  
From that washerwoman's lip  
Any song that she can sing,  
Any hope that song can bring;  
For the woman has a friend,  
Who will keep her to the end.

## OTHER TOBACCO MARKETS.

The improved condition of the roads has largely increased deliveries and tobacco warehouses are now up to their eyes in work in New York. Buyers, too, are numerous and active, and an exhaustive search is being made for the remaining lots of good tobacco still in the hands of growers. That sales are not too numerous is owing solely to the fact that most of the crop has already been bought and desirable leaf is becoming scarcer each day. From 4 to 6 cents are the prevailing figures for bundle leaf, assorted tobacco, of course, running from 2 to 3 cents higher for similar grades. Of the latter leaf about 300 cases changed hands during the week, while in bundle goods the trade aggregated about forty acres. Plans for the next crop are being discussed, and it is the consensus of opinion that about the same acreage will be planted as last year. It is true that the serious damage to the last crop has discouraged a few farmers, who will either reduce or abandon their tobacco planting, but there are enough others who will increase their acreage to offset any defections.—U. S. Tobacco Journal.

## WATER CURE IS A DREADFUL TORTURE

An Attempt to Keep the Mouth  
Closed is of No Avail—Must  
Swallow or Strangle.

The details of the "water cure" tortures which killed Private Eddie Richter are given in a letter recently received from the Philippines. It says among other things:

"But the water cure! If the tortures I've mentioned are hellish, the water cure is plain hell. The native is thrown upon the ground, and while his arms and legs are pinioned, his head is raised partially so as to make pouring in the water an easier matter. An attempt to keep the mouth closed is of no avail, a bamboo stick or a pinching of the nose will produce the desired effect. And now the water is poured in, and swallow the poor wretch must or strangle. A gallon of water is much but it is followed by a second and a third. By this time the victim is certain his body is about to burst. But he is mistaken for a fourth and even a fifth gallon is poured in. By this time the body becomes an object of frightful contemplation with pain and agony. While in this condition speech is impossible, and so the water must be squeezed out of him."

"This is sometimes allowed to occur naturally, but is sometimes hastened by pressure, and sometimes we jump on them to get it out quick! said a young soldier to me with a smile—a young soldier, a mere boy, hardly ten years out of his mother's lap. I did not wonder when an officer, in answer to my question how often he had seen it, said: 'Not often; my feelings are too much revolted. Does it seem possible that cruelty could further go?' And what must we think of the fortitude of the native when we learn that many times the 'cure' is twice given ere the victim yields? I heard of one who took it three times and then died."

## WILL APPEAL TO SUPREME COURT

Brick Paving Case Was Decided at  
La Crosse by Judge Halsay in  
Favor of the City.

The brick paving case was decided at La Crosse Thursday by Judge Halsay, of Milwaukee, will be appealed. If the supreme court decides against the city, as the indication seems to point, it will mean that Oshkosh, Racine, Janesville, West Superior and possibly other cities of the state, will have much public improvement work to go over again and will also mean that hundreds of thousands of dollars worth of bonds will be invalidated.

The history of this case and similar ones in those cities took up much time at the last session of the Wisconsin legislature. These towns, together with La Crosse, two years ago attempted to make improvements of a public nature and charge the cost to the abutting property owners by adopting parts of the general charter laws of the state.

In La Crosse the work done was the laying of \$200,000 worth of brick paving. Here the proceedings were twice declared invalid and finally an effort was made to have the legislature help the city out. Oshkosh had over half a hundred cases pending when the bill came up and West Superior was confronted with as many.

By concerted effort a bill was gotten through in the form of Section 1, Chapter 9, of the laws of 1901. It gave cities the right to reassess property in such cases where the previous assessment had been declared invalid and have the effect of a valid original assessment. It was to test the curative act passed in 1901 that this present suit was brought.

Judge Halsay decided with the city but intimated that under the proper statement of facts the law might be held unconstitutional. This point of unconstitutionality will be made the strong point when it comes up in the supreme court.

R. W. Armstrong was in the city yesterday from Oshkosh.

## HACKING.

That word hacking is expressive to those who have experienced the aggravating constant cough, which is called a hacking cough. Sometimes it is the result of a cold, or of grip, and sometimes it is a consequence of catarrh, which unchecked has gradually involved the lungs in disease. Such a cough finds its cure in Dr. Pierce's Golden Medical Discovery which cures bronchitis, obstinate coughs, lung disease, hemorrhage, and conditions which, if neglected or unsuitably treated, lead to consumption.

"For twelve years I was a sufferer from catarrh and was treated by one of the best physicians in the State of North Carolina, who said the trouble had reached my lungs," writes Mr. J. M. Patton, of Clifton, Transylvania Co., N. C. "I grew worse every day until I tried Dr. Pierce's medicine. Will say Dr. Pierce's Golden Medical Discovery with one bottle of Dr. Sage's Catarrh Remedy cured me, and to-day I am well and hearty, and I will say further that my former physician, Dr. W. M. Lyday, recommends Dr. Pierce's medicines to me and to others. I am sure your medicines will cure any case of catarrh that exists. I recommend them to all."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## FIREMAN DIES IN BIG FLAT BLAZE

Patrick McCormick Pays for  
Devotion to Duty with  
His Life.

ELEVATOR BOY SHOWS HEROISM

Renfost Apartment Building, Erected at a Cost of \$250,000 Provisions to the World's Fair at Chicago Quickly Succumb to the Flames.

Chicago, April 12.—The Renfost apartment building, Cottage Grove avenue and Fifty-second street, which was one of the finest World's Fair hotels, and valued at \$250,000, was destroyed by fire shortly after noon Friday. Only a portion of the front and inside walls remain to mark the site of the seven-story brick structure.

One fireman, Patrick McCormick, who sacrificed his regular holiday in his devotion to duty, was caught by falling walls and crushed to death.

McCormick, with Lieut. West and Frank Forkner, were in the path of the corner tower, which was toppling on jackscrews, on which it was supported. Chief Pazen saw the danger and warned the men. West and Forkner barely escaped, but McCormick was caught by the falling debris.

Fireman Charles Burk of truck company 16 and Policeman Gallagher were slightly injured while working about the building.

Through the heroic efforts of Elmer Hoff, 15 years old, the elevator boy of the building, who continued to run his car through the flames which shot up the shaft, many families were carried to the street in safety.

The Chicago Home for Invalidd Children, a block away, caught fire from the burning shafts which filled the air and was saved from destruction with great difficulty. The house contained fourteen invalid children and seven women attendants, but all were quickly carried to a place of safety.

The flames, fed by the dry timbers of the building and fanned by a forty-mile west wind, were out of control of the department almost before the first company arrived. Though a 4-11 alarm was promptly sent in, the firemen never hoped for a moment to save the building.

Elmer Hoff, the elevator boy, was the first to discover the fire. He quickly raised the alarm and made seventeen trips to rescue occupants of the building. After three trips, each more dangerous than the preceding one, he was able to carry the last tenant from the top floor, and then turned his attention to those on the sixth floor, who had stampeded to the door of the elevator crying piteously for succor.

By the time the occupants of the sixth floor were down those on the floor below had escaped by the stairway, with the exception of Mrs. U. G. Blase, who was ill in bed on the fifth floor.

Aided by Policemen Gallagher and Breen, the plucky boy carried the woman to the car. At the third floor one of the doors projected so that it interfered with the passage of the elevator, and Hoff boldly backed his machine for a good start and tore the obstruction from its hangings.

All the household furniture and valuables of the twenty-seven families who occupied the building were destroyed.

A half-hour after the fire was discovered the building was a seething furnace, and a portion of the south wall already had fallen. Sections of the high walls gave way at intervals during the progress of the fire and occasional explosions of slight consequence occurred.

The seven wonders of the United States are Niagara Falls, Caverns of Lundy, Garden of the Gods, Yosemite Valley, Natural Bridge, Big Trees of California and Dr. Crane's Quaker Tonic Tablets, the greatest kidney, liver and stomach cure. All drug stores. Fifty cents.

## PIMPLES

We talk about them for their removal.

We talk about them at this time more than we do at any other because, for various reasons, they are more common in the Spring than in other seasons.

You can get rid of them, but you must cleanse your system, thoroughly.

You can't get rid of them any other way.

**Hood's Sarsaparilla** thoroughly cleanses the system, cures pimples and all other eruptions, makes the complexion clear and wholesome, corrects all run-down Spring conditions, and builds up the whole system.

"My sister and I have been in the habit of taking Hood's Sarsaparilla in the Spring and we find it works wonders. It relieves that tired feeling, purifies the blood, clears the complexion and makes us feel better in every way. I believe it to be a duty to speak in praise of so beneficial a remedy." **ERNA REXER**, 609 East Espenschild St., South St. Louis, Mo.

### Beauty is Health.

Walnut Lake, Ark., June 8, 1900.

I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

### WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb? Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

## LEND A HAND.

Sickness had come in the home and for weeks the family had been prostrated. Two of the children had died and as the father sat by the window one bright morning, too enfeebled to walk, while his wife, just able to crawl around, was moving about the house with weary step, his attention was attracted to scenes of unusual activity in the cornfield out beyond the barn. He called to his wife as she entered the room and said:

"Mary come over here and see what you make of this."

The wife joined him and standing by his chair watched the inspiring scene.

A dozen men were busily engaged in cutting and shocking the field of corn, while over in the field beyond half a dozen teams with plows, were turning over black furrows. Then the tears came into her eyes and dimmed the vision as the truth dawned upon her.

Placing a hand on his shoulder, and imprinting a kiss on the hollow cheek she said:

"You know I told you, John, that the work would all come out right some way, and when you were so restless and worried, I sort of had the feeling that it would all come out right in the end."

While she was talking, a couple of wagons loaded with wood were driven into the yard and stepping to the door with a little more sprightly step because of the tonic of human sympathy, she said:

"Good morning. What are you boys up to now?"

"Oh, we're just lending a hand to life you over, that's all."

And then she tried to thank them, but they wouldn't listen. They said they wouldn't be worthy of the name of neighbors, if they couldn't do a neighborly act for a man in misfortune.

Lending a hand, that was all. A simple thing, and yet so significant, that it towers above all creeds, and puts to blush the loudest profession. The world is so full of want, and human hands are so plenty, that opportunity is ever present, yet not always improved.

Some good people are possessed of the notion, that in some supernatural way a Divine hand is stretched out to assist humanity in seasons of extremity. They interpret Providence to mean intervention, and help from some unseen source, and they expect prayer to be answered in some unnatural way.

This class of people are always disappointed, because they fail to recognize the significance of human aid, which is always inspired by Divine impulses.

There is life in the touch of a human hand when it is prompted by sympathy. Many a young man has been saved from ruin by the warm grasp of a friendly hand, extended by a man who felt an interest in him, and many a young man has been lost because the hand was not extended.

Many a girl has been saved from disgrace through the sympathetic touch of loving fingers and a kindly heart that was big enough and kind enough to take in weak humanity.

There is nothing ghostlike or visionary, nothing supernatural or unnatural, about human sympathy. It is very tangible and very real. The recipient may not recognize the spirit that prompts it, and the bestower may know but little about the church, and less about the great Promoter of all good, but the spirit of evil never prompts it.

Society in all its complex conditions, does not always appreciate the value of a helping hand. The fact is too frequently overlooked, that humanity has many things in common, and that there is no occasion for class distinction. The man who lives in a humble home, surrounded by a contented and happy family, is subject to sorrow and disappointment just the same as his neighbor who may occupy a mansion.

Both came into life helpless and dependent, and both will go out of it in the same condition. Fortune may have smiled on one more liberally than on the other, but the journey of both is beset with pitfalls and obstructions.

There is a mutual dependency that calls for mutual recognition. The hearty "good morning," and the warm grasp of the hand, when the sky is clear and the cheeks flushed with health, or the deed of kindly solicited, when misfortune comes, is the natural expression, that should never be stifled or permitted to decay.

Men and women in prosperous circumstances, do not always realize what a word of recognition, or a grasp of the hand means to the more lowly toiler, and so these little courtesies that contribute so much to the happiness of every day life, are all too frequently neglected. There may be nothing intentional about the neglect, but indifference and carelessness produce the same results and many good hearted people, without effort acquire the reputation of being snobbish and aristocratic, simply because kindly impulses were ignored,

and the heart was not permitted to express itself in natural ways.

There would be fewer labor disturbances and less contention between capital and labor, if the spirit that prompts the helping hand was encouraged and put in active operation.

The demand for maids in the kitchen will decrease, when the woman in the parlor recognizes the woman in the kitchen as a sister, and provides for her wants and comforts as she does for other members of the household. The girl does not ask for companionship, or intimate social relations, but she is entitled to a helping hand, and kindly consideration, not always accorded.

Virtue will be promoted and prostitution decrease, when the hand for helpfulness and the word of sympathy is more liberally extended, to the girls who stand on the verge of ruin.

The church will become a sanctuary in fact as well as name, when practical Christianity is more fully exemplified, and when the cloak of self righteousness is cast aside to permit the hand to perform the mission that is ever waiting.

There are no avenues along the dusty highways of life where the helping hand is not needed. The only change that time has wrought, in this respect is to increase the avenues and enlarge the multitude of weary travelers.

The Master recognized these conditions 2,000 years ago and His brief life was devoted to doing good in practical ways. He bequeathed to humanity the same Divine right and by example and teaching, quickened into life dormant energies. The best service rendered today is in the byways and hedges, where humanity struggles against odds, and where an outstretched hand and voice of sympathy touches responsive chords that vibrate in harmony.

To lend a hand may seem commonplace and insignificant, but it is the highest order of service. The nation and the state enjoy good government because individuals combined to lend a helping hand in enacting and enforcing wholesome laws.

Churches exist and prosper in proportion to the willingness of helpful service. The home becomes ideal in proportion to the loving service and sacrifice that the helpful hand inspires. Individual life grows strong and symmetrical in forgetting self and reaching out to help humanity.

The royal road through life is dotted with little stones, on which are inscribed the characters "lend a hand," and the royal traveler comes down to the end of the journey, dust stained and weary, yet happy in the thought that he has traveled to a purpose, recognizing here and there in the throng a fellow traveler, whose pilgrimage was made lighter because a human hand was extended in an effort to make the rough places smooth.

## WHO WILL BE GOVERNOR?

Any republican who believes in party loyalty will say, "either Whitehead or LaFollette." Any democrat possessed of good judgment will say "I don't know." He hopes it will be a democrat, but it is a forlorn hope, and he is so busy just now encouraging the scrap in the ranks of the republican party, that he is short of time to consider a candidate. Democracy is having a picnic at the expense of republicanism, and isn't paying a cent for the fun extracted. The party is accustomed to picnics and holidays, and does not fully appreciate the privileges. During the past few days, and while inflated because of a local victory in Milwaukee, the party has become quite arrogant, assuming the right to dictate to republicans what to do. It has retired Senator Whitehead from the field and put in his place a number of gentlemen, whom it would be willing to support with wind. LaFollette supporters are in sympathy with the movement, because Mr. Whitehead is recognized as a strong candidate and so the report has gone out over the state that he was to be retired.

A little common sense would suggest to these enthusiastic brethren, that there are only two forces in the state that can retire Senator Whitehead from the campaign. One of these forces is the people, whose candidate he is, and the other is the Senator himself. The people have shown no disposition to ask for his retirement, and Mr. Whitehead is neither demented nor rattled.

Any republican in the state has a right to enter the field as a candidate if he desires, but any man of ordinary judgment will think twice before deciding to do so, under existing circumstances. The Germania and Herold, German papers in Milwaukee, have a perfect right to support Senator Whitehead, Governor LaFollette or any other candidate who may enter the race. While newspapers are supposed to have an influence in politics, this influence is not always potent. The combined effort of the Milwaukee press failed to defeat Mayor Rose and Chicago has had the same experience with Mayor Harrison. People do their own thinking very largely these days.

Senator Whitehead is before the people by popular invitation. If the representatives of the people decide in convention that they want him for governor, he will be the next chief executive of the state. If some other candidate is selected by the same representative body, be he LaFollette or some other man, the same honor will follow. This is the people's forum, and no side track is long enough

to hold the crowd. The Gazette believes the choice of candidates already made by the people, will be ratified by the convention, and that John M. Whitehead will be the next governor.

Senator Jones, of Waukesha, says that he never has the back fever. The Senator is an old time politician, and trained for many years with a class that had but one watchword, and that was to win.

There is still uncertainty about the Oshkosh post office, unless Crane can be provided for in some other way. Olson will doubtless retire.

The friends of ex-governor Stone, will regret to learn of his serious illness at the Presbyterian Hospital in Milwaukee.

Thirty-three dollars from Chicago to the coast is inducing plenty of travel and the trunk lines are all busy. The new Rock Island route appears to be popular.

Meat has joined the list of luxuries with no immediate prospect for a decline in prices. The long continued drought and high price of feed, is attributed as the cause.

It takes several swallows to make a spring, and it will require more newspapers than democracy and the LaFollette forces can supply, to retire Senator Whitehead from the field.

First Church Christ Scientist. Services are held in Phoenix block, W. Milwaukee street. Sunday 10:30 a. m., Wednesday 7:30 p. m. Sunday topic, "Doctrine of Atonement." Reading room open 2 to 4 daily, except Sunday. All are welcome.

## PRESS COMMENT.

It is unfair of the pastors to say that the sons of wealthy men are no good. They are useful in scattering to the world at large stacks of money that would have been permanently retained from circulation if their fathers had lived.—Milwaukee Journal.

Madison Democrat: The way Gov. LaFollette has taken to riding the goat of late would indicate that he proposes to abandon the special train during the coming campaign.

Marquette Star: Milwaukee is talking of organizing a half-million club, having for its purpose the increasing its population to that figure. We can't imagine just how they are going to do it, but as this is the age of new fangled appliances, Marquette might keep its eyes open and perhaps get something that could be used in booming our population.

Madison Journal: The Skandinavian, a Norwegian republican paper published in Chicago, strongly urges the renomination of Hon. H. B. Dahle for Congress.

Racine Journal: The people of Wisconsin were compelled to pay out more in taxes than they otherwise would had the LaFollette legislature done the right thing as regards the mill school tax. This special form of tax should be repealed anyhow.

Milwaukee Sentinel: Secretary Shaw is beginning to find out that some of the women who protested most loudly against the inspection methods of New York custom house officials have not traveled on anything larger than a ferry boat since the present rules were adopted.

Oshkosh Northwestern: A New York man who has suddenly disappeared left a bill of sale in which is noted the interesting item: "I also bequeath to you, to have and to hold my wife." But as the legatee is a married man and there is no evidence to show that the testator is not alive there will be no attempt to carry out the provisions of the will.

## DON'T WANT ANY FUN.

The newspapers have been saying that Senator Whitehead is to be shelved as a candidate for nomination as governor, and now they are saying that Whitehead gives notice that he is in the race to stay. So there you have it. He has determined to stay off the shelf until the convention puts him on it and if another is placed on the track with the view of crowding him off, there will be at least a three cornered fight in the convention. The pot will soon begin to boil now, and the boys who do the work of keeping the fire burning will have more fun than a lot of colts in fresh spring pasture while the majority of mankind will stand back and laugh to see the fun go on and make ready to support the man

## QUITE ERRATIC

The editor of the Wisconsin State Journal, official organ made so by a Republican legislature, supported the Democratic nominee for mayor of the city of Madison at the recent city election. Really some men do some queer things in politics, especially in city elections. And, then, expect their party to overlook their political vagaries. But this may rise up to confront that sage editor, at a time and place when he will regret his erratic and as most people believe, uncalled for position.—Elkhorn Independent.

## PUSHING THE WORK ON ELECTRIC ROAD

On Monday the City Crusher Will Begin Job of Furnishing Stone to Macadamize the Streets.

Work on the inter-urban railway in this city, is progressing rapidly under the careful supervision of the Hayes Bros. Rails have been laid from Oak street as far north as Center street on Franklin street. Workmen are engaged in digging up Franklin street north of Center street and are rapidly working northward toward Milwaukee street.

Monday it is expected that the city stone crusher will begin work and the streets along the line will be macadamized about five feet from the center of the track on both sides, making a ten foot strip of fine macadam as on any of the other streets.

It is cheaper for the railway to macadamize its part of the streets along its line now, than to wait some future time when the city will require the work to be done. When the work is down it will be permanent and substantial.

The work done on the line in this city is the best possible kind. About six inches of sand is spread under the ties. The ties are large and seven feet long, the rails are 70 pounds to the yard, as heavy as the average steam railway rails, and the upper surface macadamized in a most substantial manner.

The story has become somewhat current, that freight cars will be run over the inter-urban line. It should be born in mind in this connection, that the franchise of the line forbids the running of freight cars over the line except in the process of construction. The company would be liable to prosecution for any violation of its franchise.

## EASTERN STAR HOLD THEIR STUDY CLASS

John McElroy, a Philippine Soldier Entertained Ladies with a Talk on the Islands.

The regular fortnightly meeting of the O. E. S. study class was held with Mrs. O. F. Nowlan, Thursday afternoon, and was one of the best of the season. Twenty-three members were in attendance. It was History Day; Subject: "The Philippines," prepared and given as scheduled: "History, under Spanish Rule," Ada P. Kimberley, President.

"Climate and People,"—Amanda Butts.

"Industries and Resources,"—Vinnie Carle.

"Literature and Legends,"—Nellie Sanborn.

"Some of the Best Poems,"—Readings by Mrs. Garbutt and Miss Nellie Dudley.

At 4:30 o'clock Mrs. Nowlan announced the coming of Mr. John McElroy, who had kindly responded to an invitation for an impromptu talk on the subject lesson. Having been introduced to the ladies by the president, he proceeded to the delight of all present. Mr. McElroy had but a few days before returned from the Philippines, after three years' service.

It was a treat to listen to this young soldier, who proved fully equal to answer all questions propounded, and that he was cognizant of all conditions of the islands. He showed several articles of interest he had brought home with him. One, a large hat, made of bamboo; another queer shaped affair worn by the native women, a great curiosity; an embroidered handkerchief; a piece of beautiful dress material, much like our fine apple silk tissue or muslin. These with many pictures.

A rising vote of thanks was given the speaker at the close; all agreeing that it had been an afternoon well spent. Cake and ice cream was served by the hostess and Miss Eloise. The next meeting and the last for the season will be "Patriotic Day," to be held with Mrs. Harry Garbutt, April 24.

## Hooligan Family Jubilee

The Hooligan family, formerly the G. T. D. B. club held a meeting last evening at the home of F. P. Starr. An invitation was extended last evening to the husbands of the members and they made a party a howling success. At seven o'clock luncheon was served that made the Hooligans begin with pleasure, when they saw what they were in for. After supper the evening was spent in playing High King. The first prizes fell to Mr. and Mrs. Fred Smith and the consolation to Mrs. Loomis and David Brown.

## Sent to County Jail

## CONTRACT LET FOR PROPOSED DEPOT

F. E. Green, of This City, Has the Contract for Plumbing, Sewerage, and Gas Fittings.

F. E. Green, the plumber received a letter this morning from Frost & Grange, of Chicago, the architects of the proposed Chicago, Milwaukee and St. Paul passenger station for this city stating that his proposition to do the plumbing, steam fitting, sewerage and gas fitting work about the station had been accepted by the St. Paul company, with the exception of a few minor details.

Mr. Green will go to Chicago tomorrow evening and consult with the architects Monday in regard to the changes. He is satisfied there will be no trouble in arranging these matters, and that he will return with the contract for the work.

This looks as if the company intended to get the station under way at once, although no word has yet been received by the local officials as to who was awarded the contract for the construction of the building.

## REGULAR MEETING OF ART LEAGUE

Delegates Chosen to Attend the National Convention at Los Angeles—A Fine Program.

The monthly general meeting of the Art League met with the president, Mrs. Ella H. Tanberg, at her home yesterday afternoon, who presided with Mrs. Kimberley as secretary pro tem.

Mrs. Nellie Sanborn, chairman of the finance committee, gave her report for the convention held in the city last month, the total cost of which amounted to \$133. There were eighty-four guests for dinner, 102 for supper and the Congregational ladies received \$95.50. Mrs. Kimberley submitted her report as chairman of the credential committee.

There were representatives present from twenty-six clubs; (Beloit, 11; Whitewater, 7; Racine, 3; Delavan, 1; Kenosha, 1; Evansville, 2; Edgerton, 2; Monroe, 1; total number of delegates forty-three. Total number of visiting club members, 107.

The class chose for our delegate to the 6th biennial to be held next month in Los Angeles, Mrs. J. L. Ford with Mrs. T. O. Howe as alternate. Mrs. Tanberg is a delegate by virtue of her office, also a member of the council.

The program was exceedingly short "The First Newspaper," Mrs. Tanberg's subject, accounts of which are very vague. The first appeared in Venice in 1610. Mrs. Woods read a paper on the "Carbonari" which had been prepared by Mrs. Stevens. This was a secret society formed in the Kingdom of Naples during the reign of Murat by republicans and others dissatisfied with the French rule. The name was taken from the mountain charcoal burners. Mrs. Woods also read of Venice from Stoddard's lectures. The meeting adjourned until May 9th.

## FREEPORT SHERIFF HUNTING TWO MEN

Trace of Escaped Prisoners Found in This City—One of them was Captured.

Sheriff Fox of Freeport was in the city today after J. Beverly and Fred Van Alstine, two men who escaped from the Stephenson county jail on Wednesday. Beverly appeared at the county jail last night and asked to see one of the prisoners. He was pretty full and Sheriff Maltress ordered him away. George Rawliff who was sent down for four days yesterday, this morning told Maltress that Beverly ought to be serving time at Freeport for robbery and had probably escaped from there. Sheriff Maltress at once called up Sheriff Fox and asked if he had lost a prisoner. He said he had lost two and gave a description of them. The Sheriff and the police immediately started out looking for the men, and Chief Hogan and Under Sheriff Cochran found Beverly in Sennett's saloon and took him to the lock-up, where he was identified by Sheriff Fox this afternoon.

Van Alstine came to this city with Beverly but up to three o'clock he had not been located by the police. Sheriff Fox returned to Freeport this afternoon with Beverly who has a year to serve for chicken stealing.

## WILL GO TO WORK MONDAY MORNING

Striking Carpenters Held a Mass Meeting This Morning--Will Settle by Arbitration in Future.

The carpenters' strike which has been under way in this city for the last two weeks now looks as if a settlement would be reached. The carpenters held a mass meeting this morning and it was decided to go to work Monday morning and leave the dispute to be settled at some time in the near future by arbitration.

There are really only one or two points upon which the carpenters and the contractors cannot agree. These matters will be left to a committee from the contractors and carpenters for settlement.

So far the strike has caused considerable trouble and delay in the erection of buildings now under way. The people who are having buildings erected will be pleased to know that work will be resumed at once.

A number of people who contemplated building this summer have abandoned this idea on account of the labor troubles and the uncertainty of getting the work finished.

While the strike has been on nearly two weeks, there has been nothing but a kindly feeling on both sides for the other side. In this respect the strike was unique.

It is fortunate the strike has been ended so amicably and so soon, as several jobs have been held back, notably the interior of St. Mary's church, the repairs at the corner of West Milwaukee and Jackson streets, the Marshall shoe factory and several residences in various parts of the city.

**ABSOLUTE FAITH.**

You can depend upon the word of this Janesville Citizen.

He has had the experience. He has thoroughly tested the article.

He has found it as represented.

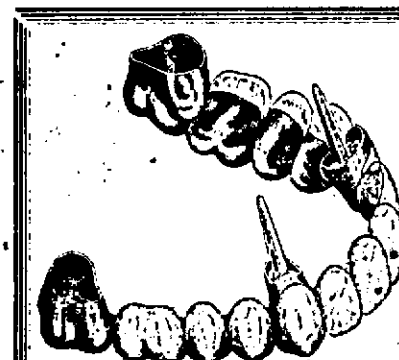

He has absolute faith in its merit.

Mr. L. Lawrence, of 408 S. Franklin st., engineer at the Janesville Electric Light Co., says:

"Seven years ago I injured my back by falling through a bridge near Afton, into the Rock River. I was on a traction engine, its weight broke through, and the whole thing went into the stream. Since that time my back has ached by spells, sometimes very severely. If I caught cold I settled in my kidneys and if I brought a strain on my back lifting, the result was a bad backache and sharp twinges of pain in my loins. I procured Doan's Kidney Pills at the People's drug store and after I used them I was free from backache. I am in better health than at any time since falling through the bridge.

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Also on sale at King's Pharmacy.

## TRADE CONDITIONS CONTINUE ACTIVE

Weather and Strikes Fail to Affect the Movement of Merchandise.

### REVIEW OF WEEK'S BUSINESS

Manufacturing Reported Exceptionally Vigorous in Lines Not Affected by Labor Troubles—Corn and Wheat Movements Compared with a Year Ago.

New York, April 12.—"Good news predominates in the business world, notwithstanding two somewhat serious drawbacks. Weather conditions have been unsatisfactory at many points, retarding retail distribution and delaying outdoor work, while excessive rain has put many southern planters behind with work in the cotton fields. Still more of a handicap is the strife between wage earner and employer. Manufacturing is exceptionally active in lines not disturbed by strikes and there is a vigorous movement of goods through regular channels." It. G. Dunn & Co.'s weekly review thus sums up trade conditions. The review continues:

"At the close of last week negotiations were concluded for a large sale of pig iron at \$14.50 furnace, deliveries beginning in October and covering six months. This price is in line with the avowed conservative intentions of the leading interests.

"Firmness in cotton goods naturally follows the combination of light stocks and the interruption of work at some mills, with threatened disturbance at others, together with the higher price of raw material. Large transactions have been effected for export, mainly of sheetings for China. Clothing buyers are seeking to secure woolen goods to substitute for deliveries retarded by the strike, but find the market heavily overbought and many lines withdrawn or advanced in prices. Worsted manufacturers are busy and there is a noticeable inquiry for yarns. Footwear manufacturers have secured a little more business and shops have been able to avoid the reduced time that was feared. Jobbers have placed orders for fall supplies earlier than usual, which had a helpful influence. Dry hides have advanced.

"More animation has appeared in the speculative markets for staples. Fluctuations were more irregular in corn, which broke sharply here and at the West, but made a partial recovery, although still remaining below the best price last month. Wheat moved within narrow limits. Western receipts for the week were 1,722,542 bushels, against 2,068,042 a year ago, and the total for the crop year is gradually falling back to last year's figures. Lower prices stimulated exports for a time, but shipments of wheat and flour from all ports of the United States during the week were only 3,849,970 bushels, against 4,976,810 last year, and Atlantic exports of corn were only 159,213 bushels, against 2,020,349 a year ago.

"Failures for the week numbered 193 in the United States, against 203 last year, and 19 in Canada, against 24 last year."

Mr. and Mrs. W. F. Boettcher and daughter Louise spent Sunday visiting friends at the Six Corners.

The Dutton boys are sawing wood for A. G. Russell.

Miss May Hodge spent Saturday evening in Janesville.

Miss Alice McDermott and Mr. Diller called at John McDermott's Sunday.

**EDGERTON**  
Edgerton, Wis., April 11.—Miss Elsie Cornell spent a few days last week with friends in Stoughton.

Mrs. J. Kelly and daughter Jennie were visitors in Milton Junction Friday.

Miss Winifred Coon spent a part of her vacation with her sister, Mrs. Frank Hedges of Evansville.

Mr. Skibels has accepted a position as salesman for a clothing firm in Madison. He began his work this week.

Miss Dora Butts and Miss Mabel Wauke of Milton Junction were the guests of Mrs. Alfred Henderson on Saturday and Sunday.

Mr. and Mrs. F. W. McKinney spent Saturday and Sunday in Evansville.

T. J. Atwood has returned home from California where he has been for the winter. His family will follow later.

Miss Lula Lund and Miss Daisy Chase of Fort Atkinson attended the women's dance and spent Sunday with the former's parents in this city.

George Schmelling and Miss Julia Ulms were married at Rockford Thursday and returned to Edgerton in the evening where they will make their home.

L. C. Whitte and Charles Birkenmeyer were Janesville visitors on Wednesday.

The annual ball given by the firemen last Friday night was well attended and a good time was enjoyed by those who were there. About eighty-five tickets were sold.

## SECRETARY GLEASON

Of The Woman's Catholic Order of Forresters, Chicago,

St. Francis Xavier Court No. 174, Endorses Lydia E. Pinkham's Vegetable Compound.

Some women are tireless in their home work, others in their work in the church or their favorite society or club; they laugh and sing and are happy. But think of the poor one who is left at home, utterly unable to make any effort whatever, broken hearted and despondent.

The horror of female complaints is upon her; she is oppressed by that distressing bearing-down feeling, backache, her nerves are all gone, don't care to move and wants only to be left alone.

O, dear sister, don't you know by this time that Lydia E. Pinkham's Vegetable Compound will surely reach the cause of all this trouble and make you well and strong! It certainly will cure you as certainly as the sun shines. Read what Mrs. Gleason says:

MRS. M. GLEASON, Chicago, Ill.

"I want every woman to know that Lydia E. Pinkham's Vegetable Compound has been of untold value to a large number of women of our order. I know positively that it has cured many of the most distressing diseases of the pelvic organs, falling of the womb, ovarian troubles, and painful menstruation. There is no question in the world but that it is superior to any medicine for women. I have used it myself and know whereof I speak. — Yours truly, Mrs. M. GLEASON, 654 West Taylor St., Chicago."

### Two More Sufferers Cured.

"DEAR Mrs. PINKHAM:—I was sick with female weakness. I took all kinds of medicines, you might say, and was operated on by doctors, but they did me no good. After taking five bottles of Lydia E. Pinkham's Vegetable Compound I found relief and am now enjoying good health. Since taking your medicine I have become the mother of a little boy. I will praise your medicine as long as I live."—Mrs. SARAH E. REEDER, Amsden, Ohio (Dec. 27, 1900.)

"DEAR Mrs. PINKHAM:—I suffered daily from backache and stomach ache. Menstruation was suppressed for six months, and then appeared again, but very painful and irregular. Instead of consulting a doctor I thought I would try Lydia E. Pinkham's Vegetable Compound. I now feel as well and strong as ever I did, and since taking it I have given birth to a little boy and we do bless your medicine. I will advise all sick women to use it."—Mrs. IMA JENNINGS, Box 93, Amsden, Mich. (March 1, 1901.)

Mountains of gold could not purchase such testimony as we are constantly publishing; only the unquestionable merit of Mrs. Pinkham's great medicine can accomplish so much. Write to Mrs. Pinkham, at Lynn, Mass. if you are ill. The efficiency of her advice is proven by thousands of letters from women who have been cured of female troubles by her guidance and medicine.

**\$5000** REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.
